Product Category:
Home Health

Contents:
Pouch and Ice Pack

Warning:

Unopened bottles or pens should be kept in a refrigerator until ready for use.

Read the pharmaceutical companies recommendations for the proper storage and use of insulin products.
Use only as directed.

Ideal for people
travelling

Will keep cool
for 12 hours

The Medicare® Daily Diabetic Organiser is perfect for everyday use. It organises all your diabetic supplies in one place. Fitted with elastic hoops, compartments and netted section so all your supplies can be securely organised. It comes with a reusable ice pack, which when frozen, will last for up to 12 hours keeping your insulin pens and vials at a safe temperature. Its compact design means it is a perfect travel size.

FEATURES:

- Includes re-freezable ice pack that lasts 12 hours
- Secure storage for vials, pens and supplies
- Holds everything you need in one place
- Padded protective pockets

DIRECTIONS:

1. Remove cooling pack from the pouch.
2. Lay ice pack flat inside any domestic freezer.
3. Freeze for 6 or more hours.
4. Place the pack back inside the pouch, along with your medication.

CONTRAINDICATIONS AND PRECAUTIONS:

Medicare Daily Diabetic Organiser is for insulin bottles or pens currently in use.
