Automatic Upload  
of Data via Wireless  
Technology

The Medicare LifeSense® A4 Upper Arm Blood Pressure Monitor is designed to connect with the Medicare LifeSense® health status monitoring app so you can effortlessly monitor your blood pressure from the comfort of your own home. It uses irregular heartbeat detection and is reliable due to its clinically proven accuracy.

## FEATURES

- Fully automatic upper arm measurement
- Automatic upload of data to a smartphone or tablet via Bluetooth technology
- Accurate measurement to  $\pm 3$ mmHg
- WHO BP classification indication
- Automatically averages last 3 measurements
- Supersize LCD display

## DIRECTIONS:

Relax before taking measurement. Firmly wrap the cuff 2-3cm above bend in arm but do not wrap too tight. Rest your arm on a table and turn on the monitor. After the results appear on the screen, you can turn off the monitor.

## RECOMMENDED USE:

Recommended to monitor blood pressure.
