Do not use near eyes, nose or mouth. If product gets into eyes, immediately wash/rinse with clean water for 15 mins and consult a doctor.  
Discontinue use if a rash appears.  
Keep out of reach of children.  
Should symptoms persist or worsen, consult a doctor.

Medicare® Bite & Sting Cream gently soothes and calms skin from the discomfort, itching and swelling of insect bites and stings.

## FEATURES:

- Soothes the skin
- Moisturises the skin
- Immediately calms the discomfort, itching and swelling of insect bites and stings.

## DIRECTIONS:

1. Apply directly to the area of the bite or sting and rub gently.
2. If itching persists, re-apply as necessary.
3. For a bee sting, remove stinger before treatment.

## CONTRAINDICATIONS AND PRECAUTIONS:

Can be used by adults and children 2 years and over.

If using on a child under two, please consult a healthcare professional.

Do not apply to broken skin.

For external use only.
