

Spray Plasters

Instant protection for minor cuts and grazes

FACT BOX

Product Code:
MD500 & MD501

Product Category:
First Aid

Size:
60ml & 35ml

Intended User:
Can be used by the whole population and diabetics. Using the spray during pregnancy or breastfeeding is possible, but not on large areas. The product can also be used by children older than 2 years.

Shelf Life:
3 years.
Up to the date indicated on the bottom of the can.

Transparent & Waterproof

The Medicare Spray Plaster protects minor cuts and grazes from water and dirt by creating a transparent, breathable film on the skin.

It is used for quick treatment of abrasions and small superficial wounds on strained body parts that are difficult to cover with a standard bandage.

FEATURES:

- Water resistant.
- Provides a transparent, breathable film.
- Gradually disappears as the skin heals.
- Non-contact first aid that helps prevent infection.
- Dries within 3 minutes.
- Ideal for awkward, hard-to-reach areas like elbows, knuckles, toes or knees.

CONTRAINDICATIONS AND PRECAUTIONS:

Must be applied by spraying on a cleaned, disinfected, dried wound. It is removed spontaneously after 3-4 days by ongoing gradual thinning of the layer by wear.
