Mediskin Blue Nitrile Powder-Free Exam Gloves are a type of disposable glove made of synthetic rubber that offer excellent resistance to wear and tear. The gloves are used while conducting medical examinations, diagnostic and therapeutic procedures to protect from cross contamination or infection.

FEATURES

- High abrasion and puncture resistance.
- Non-sterile and disposable.
- Micro-textured for better wet and dry grip.
- Rolled cuff.
- Made from synthetic rubber.

DIRECTIONS:

Place your hand on the template on the back of the box to find your glove size. Round up to the nearest size.

RECOMMENDED USE:

Ideal for those with sensitive skin or for those who are allergic to latex.
